18.00 – Parvez: Slow Food for a Mourning

Death implies a time for mourning. There are communities that ensure that a family in mourning is not left alone and is provided food by friends and neighbors. Parvez invokes this act of compassion and invites you to share a humble meal together with some of those who haven't had the time or the possibility to mourn the ongoing deaths of thousands of fellow citizens that include family members, friends, children, women, men and acquaintances.

19:00 – Voices from Palestine – A Call for Solidarity

Join us for a powerful conversation with Sabreen, Majed Abusalama, and Mousheera Jamal, Palestinian speakers born and raised in Gaza and currently based in Europe, alongside a young woman, who joins us from Palestine.

Together, the speakers will share first hand perspectives on the ongoing genocide and the anti-colonial struggle for the liberation of Palestine. Attendees are encouraged to hold space for those directly impacted, to listen and to engage in a thoughtful dialogue. This event will also offer a chance to reflect on what international solidarity can look like in times of emergency and consider ways in which people in Switzerland, France and Germany can contribute for a ceasefire and an end of occupation.
